Subject: Re: Extension to Invoke Dispute; EPA Directed Comments of December 8, 2010

Bob and Jim
correction - we will allow an additional 16 days, the revised deadline
remains January 28, 2011.

Chip

Jim and Bob,

This is to follow-up on our recent conversations regarding the deadline for the LWG to invoke dispute resolution on one of the directive comments in EPA's December 8, 2010 letter. EPA agrees to allow an extension of 14 days to the January 12th deadline to invoke dispute resolution on EPA's comments related to the conceptual site model update for the RI (linking sources to in-water contamination). The new deadline is January 28, 2011.

Please let us know if you have any questions.

Chip
